

BillingTree Clients Step Up to Payrazr for Secure, Reliable and Compliant ACH and Credit Card Processing

Overview:

In 2015, dozens of dedicated BillingTree clients elected to migrate from the payment solution provider's third-party legacy payment gateway solution to the all-new myPayrazr Gateway. Built from the ground up by BillingTree, the myPayrazr Gateway was designed to offer clients a unique combination of performance and usability to maximize client cash flow while minimizing exposure to compliance risks.

LRA Corporation:

LRA has been a BillingTree client for over a decade, focusing on collections for companies that finance insurance policies. Raybin's history with BillingTree and confidence with their services team gave him the confidence to be one of the early adopters of the new gateway. Larry Raybin has this to say about the experience:

"The new system has worked flawlessly. The client experience with BillingTree is absolutely the best in the marketplace."

Christopher & Brummett:

Christopher & Brummett, Inc. was a new BillingTree client when her firm implemented Payrazr. Her firm was up and running on the system in a matter of days. Lora McKewen has this to say about Payrazr:

"It was easy to migrate to the new solution, and once Payrazr was in place, we appreciated how intuitive it was."

Evolve Business Solutions:

Deb Carole with Evolve Business Solutions has this to say about Evolve's migration to Payrazr:

"I just want something easy to use. It's straightforward, not a lot of clicks to get to what I want. If I need a copy of a receipt, I don't have any trouble obtaining it, or emailing it after the transaction has completed."

Clients continue to express complete satisfaction with their migration to the myPayrazr Gateway, and the level of service, support and reliable payment processing they experienced.

Companies

LRA Corporation – Larry Raybin
